Stucco Rite Inc. is one of the leading stucco contractors in Colorado. Their vast capabilities are complimented by a comprehensive insurance policy which provides coverage for their work as a stucco and masonry contractor. They have coverage for Exterior Insulation and Finish Systems (EIFS). Their policy also includes a blanket additional insured endorsement, which includes primary and non-contributory wording, and a blanket waiver of subrogation. Stucco Rite is capable of performing work on any large commercial projects, including multi-unit projects up to 50 units, single-family tract housing, and residential projects, to name a few.

At Ewing Leavitt Insurance we believe that our clients should not have to limit their capabilities because of insurance policy restrictions. We have worked to provide broad coverage for Stucco Rite as we continue to meet the insurance needs of the Colorado community.
